POLITICAL.

A Point for Blaine Men in This County.

THE DEMOCRATIC HOSTS AT CHARGES.

BRECKENRIDGE NEWS, BURLINGTON, IOWA, Feb. 2.—The recent Republican Convention which met in this city to choose the coming State Convention has developed some features never known before. It was a Convention of office-holders under the present administration and they are going to make an effort to send a solid State delegation to support Harrison at the Minneapolis Convention.

Up until the evening of the holding of the recent Convention, no word had come to go far out of this city to find out of Blaine men in about any Republican party. But they are gone. When questioned, the former Blaine men say they never were for the man from Maine, and by their hands upon their hearts and oaths by everything in politics, and that includes all things, that they always were Harrison men even from the days of their birth.

The truth of the matter is that the office-holders have come to believe that Blaine has lost his spark, and that their only hope, and the only hope for their party is the re-election of Harrison. At the State League meeting at noon Friday, which preceded the Executive meeting, but a few hours, the purple and the red of the Republican party were seen, succeeded in enlisting the services of all outside Republicans, and they will control the State Convention which will be held in this city on the 20th of March. And not only that. The carriage are now being loaded and will be placed in the magazines of the County Convention by experts at the proper way in ample time and with complete trigger work will drive a big wedge for the bench-legged man from Hoosier.

But the other countries in the State will be instructed the same way and by the same process. Harrison will be the nominee of the Republican party.

Having now for nearly three years attended uniformly to the low end of the scale, it would seem that it was assurance enough to satisfy the most skeptical, that the Cash Store would continue the same as it has been having to meet it over and over through the Breckenridge News in every paper in town. Our "No-Profit" Sale still goes on, and we were not mistaken in the result. We knew that as soon as the people saw how cheaply they could buy our superior clothing they would make a "run on us." The consequence is, we are busy—very busy—selling goods, but the profit account in our ledger.

Still we are satisfied. The piles of goods our customers are growing smaller—keeping pace with our profits. We desire to say to those who have not yet taken advantage of our "Special Price" Sale, that they can not afford to put it off much longer. It will pay you to buy now for next season's use.
